# PLASTROM SERVICE

As a General Entrepreneur and Subcontractor, the Plastrom group has fulfilled the contractual obligations with professionalism and earnestness, proving to be a reliable partner, always responding promptly to the client callback requests.

## DESIGN

- Architectural Projects;
- Structures Of Resistance;
- Sanitary installations, electrical, thermal, climate system and gas.

Every stage of each project is carried out in collaboration with engineers licensed interior design and exterior design. The design work is carried out with the latest generation of software: Autocad, 3D Studio and so on.

## EXECUTION

- civil and industrial construction;
- structures of reinforced concrete;
- restorations, consolidations;
- interior electrical installations, sanitary and thermal-heating systems;
- interior and exterior completions;
- plating with wall tiles, floor tiles, marble and granite;
- washable paintings, papering;
- dried plasters and inside walls of drywall;
- false ceilings of glass fiber, mineral fiber or plasterboards;
- noise and thermal insulation of the walls and ceilings;
- facade refurbishments;
- hardwood floors and carpeting assembly;
- brick masonry or autoclaved aerated concrete (AAC), cementation, plastering, surfacing;
- technical floors in continuous field;
- metallic confections, ventilations, refrigerating rooms;
- waterproofing and special repairs at the waterproofing system;
- pavement and borders mounting.

The works run on the basis of approved projects by beneficiaries, are carried out in accordance with the general execution graphs and monthly on the basis of pre-established deadlines, with the beneficiary.

## BUILDING MATERIALS DISTRIBUTION (at importing prices)

Depending on the page of the project in which you find yourself, design, execution or acquisition of materials Plastrom is at your DISPO with the best specialists in the field.
